REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-14 is the inclusion of the limitations of a printhead for a pagewidth inkjet printer including a receiving member and at least one printhead module defining complementary location formations comprising a first pair of complementary location formations, the first pair comprising a projection and a recess adapted to receive the projection, wherein the recess is extended in the longitudinal direction with respect to the projection and wherein the projection is slidably received within the recess so that expansion of the at least one printhead module relative to the receiving member along the longitudinal axis is accommodated. It is these limitations found in the claims, as they are claimed in the combination of, which have not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
